- \* *Ten Lesions Techs Can ID* – Use your cytology skills to identify common cutaneous FNA lesions
- \* *Quality Assurance for your in-hospital lab – do you want a number or the right number?* Tips and tools to gain confidence your in-hospital laboratory analyzers and other results are accurate.

**5-6 pm Dinner Registration and Happy Hour with complimentary drinks and hors d'oeuvres**

**6 pm Banquet Dinner and Keynote Speech with Dr. Tony Goldberg (1 CE Credit Hour)**

*Open to everyone. Even non-veterinary guests will find this program interesting!*

- \* *Scary viruses, killer tapeworms, and nostril ticks: unanticipated adventures in emerging infectious disease research* – Infectious diseases are emerging at unprecedented rates, and novel approaches are becoming available to meet this challenge. This talk describes pathogens that are emerging in Wisconsin and beyond. It considers the idea that novel diagnostics and bio-informatics approaches are leading to a “next-generation” approach to disease emergence and public health that promises to revolutionize how we approach infectious disease research, diagnostics, and prevention.
- \* Dinner serving an all-you-can-eat selection of broasted chicken and braised sirloin beef tips with sides and desserts or a plated vegetarian/vegan option of herb marinated grilled vegetables with saffron cauliflower risotto
